# About Us

FX Services Australia is a leading wholesale distributor to the fire protection industry in Australia. Our national distribution network allows us to partner with fire industry professionals by providing them with an unprecedented level of service and expertise anywhere in Australia.

We offer a large range of products ranging from fire extinguishers, fire hose reels and their ancillaries right through to batteries and fire cable. FX Services is also able to source just about any product relating to the fire industry at competitive prices. In addition to our large range of products on offer, we are one of only a handful of companies that still operate fully functioning workshops, enabling us to carry out pressure testing and recharging of all types of extinguishers.

With FX Services Australia only selling to resellers you don't have to worry about supporting your competitor's as we provide you with a cost competitive option. All of our products have been rigorously tested and come with the longest warranties available in the fire industry along with a no fuss attitude in the unlikely event of a warranty claim.
